Topics

Vehicle fire is a man-made disaster.

Vehicle fire of garbage trucks can lead to a fatal accident for workers and local residents. We ask to properly separate and dispose garbage, and to cooperate in preventing fire accidents.

▲ Spray cans and rechargeable lithium-ion batteries which were in the crushable garbage and thought to be the cause of the fire.

Spray cans and gas lighters are hazardous garbage, and lithium-ion batteries go to shops nearby where recycles batteries.

From April 1, 2023, you will need to make a reservation to bring household garbage to the Resource Recovery Center (Shigenka Center).

Why are reservations now required?

We are introducing a reservation system for the Resource Recovery Center to reduce traffic on surrounding roads and ensure the safety of vehicles bringing in household waste. You can make reservations by phone or online beginning March 20, 2023. Please see “2. Reservations for bringing household garbage directly to the Resource Recovery Center, etc. (Free)” on the reverse of this flyer for information about making an appointment.

Bringing in household garbage properly

With the introduction of the reservation system, we ask for your cooperation in properly taking trash (crushable garbage, etc.) to the appropriate waste stations.

We kindly ask for and greatly appreciate your understanding and cooperation.

(Continued on reverse)
